

Series 5600 Access Hatch Guard

Product Data Sheet

Product Details

Features:

- Free standing system to protect against fall hazards around hatch openings.
- Guard includes secure handholds for safe ingress/egress of hatch opening.
- A 2' safe landing zone to safely step out of or into the hatch opening.
- Self-closing gate ensures open hatch is guarded at all times.
- System fits around existing access hatch with a compression fit to the curb — requiring no penetration to the roof or hatch.
- Available in powder coat safety yellow or galvanized finish. Optional custom colors available on request.

Dimensions:

- Available in custom sizes to fit existing roof access hatches — with sizes up to 5' wide by 14' long.

IMPORTANT SAFETY NOTE:

The owner must take steps to protect personnel who may be in the area of the skylight or smoke vent. The owner should restrict access only to authorized personnel who have been adequately cautioned as to the location of the skylights or smoke vents and informed of the warnings below. Because there is a risk of fall and resulting personal injury, we recommend protective guardrails, internal safety screens or external cages around all skylights and smoke vents, as well as the use of fall restraint systems. We also recommend that skylights and smoke vents are inspected annually for evidence of damage, such as cracks or penetrations. Any damage should be repaired immediately, and the area beneath the skylight or smoke vent should be safeguarded against falling objects.
